25 July 2001

OVERVIEW : FOR COMMERCIAL VEGETABLE GROWER ASSESSMENT REGARDS TO WORKING IN HARMONY WITH NATURE ,TO INCREASE OUR BUSSINESS POTENTIAL.

Over the past 18 months R.C. Hari & Sons Ltd have used the many services from Earth Talk - Phillip Grey.

1. Firstly land was cleared of Geopathic Stress and negative energies
2. Harmonisers were used in conjunction with Audio Frequencies to enhance life to crops planted out.
3. Light Life Rings were used for balancing the water (potentised water) to allow the crops to intake more locked - up nutrients within the soil, when there was a need to irrigate the crops
4. Light Life Rings were used when there was a need to irrigate the crops. Results been fewer insect pests, more healthier plants staying fresh longer and bigger crop yields.

All of these Light Life tools used by Mr Phillip Grey have improved the crops considerably and reduced the amount of chemicals needed to maintain healthy crops.

A recent summary by the Quality Control Auditors of this year's onion crop pack-out gave particular emphasis to the high quality of our onion crop. This in turn enabled the onions to be exported to as far destinations as Europe, England, and Japan.

See our other testimonial and Quality Bureau Ltd testimonial. Subject onion quality.

The company of R.C.Hari & Sons Ltd would like to thank Mr Philip Grey for his knowledge, time and

techniques in improving the vegetable productions.

Yours Faithfully

Vallabh Hari.
Co-Director.
